British Naval Programme.

London, March 1.—In introducing the naval estimates in the house of commons, Ernest G. Pretyman, secretary to the admiralty, justified the increase in the estimates on the ground that the two powers standard must be maintained. Great Britain's navy is to have sixty-three first-class battleships.

Messages of War.

Among the natives of Australia notched and carved sticks are used for messages. For instance, a piece of wood carried from one village to another with straight and curved lines cut upon it is a message of war and means: "There is a fight on hand. Fetch your spears and boomerangs."

The North American Indians utilized wampum belts from time immemorial for like purposes. The arrangement of the different colored beads conveyed the signification desired.

JAPANESE WARSHIPS SHELL PORT ARTHUR

MAINTAIN A FURIOUS BOMBARDMENT OF THE RUSSIAN POSITION FOR TWO HOURS.

CRUISERS MEET THE ATTACK

NOVIK, ASKOLD AND BAYAN COMPELLED TO FLEE BEFORE THE JAPANESE FIRE.

SINK RUSSIAN TORPEDO BOAT

JAPS ALSO DAMAGE TWO CRUISERS AND THE STRANDED BATTLESHIP RETVIZAN.

London, March 1.—A dispatch to the Daily Telegraph from Yinkow, dated Feb. 29, says: "Fifteen Japanese warships furiously bombarded Port Arthur from 10 until 12 o'clock this morning. The Russian cruisers Novik, Askold and Bayan, accompanied by four torpedo boats, steamed out to meet the attack. They were, however, forced to retire. The Askold was in a sinking condition. The Novik was badly damaged and a torpedo boat was sunk. The Russian battleship Retvizan was again damaged. The Japanese withdrew in good order."

A rumor is current that the Japanese are making a vigorous attack upon Port Arthur by land and sea and Russia has lost more vessels.

ADOPT SAME OLD TACTICS.

Japs Make a Flying Attack Upon Port Arthur.

London, March 1.—The pause in the war operations in the far East has been broken by another Japanese attack on Port Arthur, of which only a brief account is yet to hand. This report, however, shows a repetition of the now familiar tactics of Japan and it is presumed that this attack was made in bad weather, previous telegraphic advices having reported a severe gale raging at Port Arthur. As usual the Japanese did not remain long enough off the harbor to enable the gunners at the forts to get their range. Again, also, the same three cruisers, the Bayan, the Askold and the Novik, came out to meet the attack, and this suggests that either they were the only effective ships there or that the larger battleships were unable to get out.

RUSSIANS PUT TO FLIGHT.

Japs Win First Clash on Land at Pingyang, Korea.

Tokio, March 1.—The first shots of the war on land were exchanged Sunday at Pingyang. A small detachment of Russian infantry, evidently scouts, appeared to the northward of the town. The Japanese outposts opened fire from a range of 1,700 metres and the Russians retired. The telegram reporting the incident fails to mention any casualties. It is presumed there were none, on account of the small number of men engaged and the distance separating the opposing armies. It is reported here that there will be a small engagement soon somewhere in Northern Korea, where the Russians are scouting over an extended area, close to the Japanese positions, but a general engagement is not expected to occur for some time. The Russian force south of the Yalu river

is inconsiderable, its greatest strength seeming to be in the vicinity of Wiju. North of the Yalu the Russian army is constantly increasing in numbers and is being mobilized, but the chances of its assuming the offensive are slight.

The Japanese army is constantly strengthening its position and increasing its force in Korea.

PROBABLY BLOCKADED BY JAPS.

No News From Vladivostok for About a Week.

St. Petersburg, March 1.—Direct confirmation of the report from Hako-date that Vladivostok is blockaded by the Japanese vessels cannot be obtained, but is considered not improbable.

During the Japanese landing operations in Korea the Russian warships to the north were a constant menace and blockading them would be the most effective means of securing noninterference. Furthermore, it is worthy of note that for more than one week no word has been allowed to come from Vladivostok, and this, in itself, seems strong presumptive evidence that important events are transpiring.

RETURNING TO THE BALTIC.

Admiral Wrenus' Squadron to Remain There Until June.

Paris, March 1.—The St. Petersburg correspondent of the Echo de Paris confirms the report that the Russian squadron under Admiral Wrenus, last reported in the Red Sea, is returning to Libau, Courland, and says it will remain in the Baltic until June.

RUSSIANS REACH THE YALU.

Mounted Infantry and Artillery Hold Mountain Passes South of Wiju.

Tientsin, March 1.—Twenty-five hundred Russian troops are reported to have reached the Yalu, and two regiments of mounted infantry, with artillery, hold the mountain passes, some thirty-five miles south of Wiju.

TO PREVENT JAPS LANDING.

Cossacks Advancing Along the East Coast of Korea.

London, March 1.—The Shanghai correspondent of the Daily Express says it has been officially announced that the Japanese mail boat service between Shanghai and Japan will resume Saturday without naval escort. Many alleged dispositions of the opposing military forces are published here, but they differ too much in detail to be of any great value.

According to a report from St. Petersburg a body of Cossacks from the South Ussuri province, with quick-firing guns, is advancing along the east coast of Korea to prevent the landing of the main Japanese army and the comment is made that possibly the reported Japanese landing at Fossiet Bay may have been made with the intention of attacking this force. A dispatch from Shanghai says the Russians are transferring the guns from their disabled ships at Port Arthur to the forts there.

A dispatch from Chefoo says a Japanese cruiser and torpedo boat entered that harbor without lights at 1 o'clock a. m. Feb. 29, and it is believed they embarked the Japanese who took refuge there after the attempt to bottle up Port Arthur.

A correspondent of the Times at Weihaiwei says a Japanese fleet was seen off the Shantung coast Feb. 29.

A Tokio correspondent of the Times cables that the steamers sunk by the Japanese on either side of the Russian battleship Retvizan at Port Arthur partially obstruct the entrance to the harbor.

WILL NOT SURRENDER.

Russian Commander at Port Arthur Says It Is Fight to the Finish.

Port Arthur, March 1.—General Stoessel, commander of the garrison here, has issued a general order directing the attention of the troops and inhabitants to the fact that the Japanese intend to land and seize the fortress. The general declares the Japanese consider the seizure of Port Arthur to be a question of national honor and from their obstinate attacks and bombardments of the fortress and bays he can only conclude that the enemy will make every effort to capture the fortress, failing which the Japanese will destroy the railroad and withdraw.

"The enemy, however," proceeds the general order, "is mistaken. Our troops know and the inhabitants are herewith informed by me that we will not yield. We must fight to the finish as I, the commandant, will never give an order to surrender. I bring this to the notice of those less daring and call on all to become convinced of the necessity of fighting to the death. Those who leave without fighting will not save themselves. There is no way out. On three sides there is the sea and on the fourth will be the enemy. There is no means of escape except by fighting."

Notwithstanding the heavy gale which is blowing the lights of Japanese scouting vessels were visible in the offing during the night.

COMMERCIAL TRANSACTION.

Japanese Cable to Guam Would Not Violate American Neutrality.

Washington, March 1.—Thus far the United States government has not received an application from the Commercial Cable company to land a Japanese cable on the island of Guam. The government, however, has been appealed to in a tentative way by representatives of the company so as to ascertain how the United States would view such an application if it were made. No decision has been reached, although in the light of present information there is a manifest disposition

to regard such a request as entirely reasonable and proper. It is considered that the laying of the cable would be purely a commercial transaction and that the granting of permission for laying the cable at Guam would not violate in any sense the position of neutrality which the United States has assumed in regard to the Japanese-Russian conflict.

Russia has made no protest to this government against the granting of permission to land the cable at Guam. What action the United States would take in that event cannot be foretold as it would depend entirely on the circumstances of the concession.

IMPRESSES THE RUSSIANS.

Report That Japs Will Capture Port Arthur at Any Cost on March 1.

St. Petersburg, March 1.—The report from Liaoyang, Manchuria, that the Japanese fleet received orders to attack and capture Port Arthur on March 1 at all costs, coupled with the comparison of Port Arthur and Sevastopol made by the Novoe Vremya, has created a profound impression and has added to the belief that the Japanese possibly intend to commence land and sea operations against Port Arthur sooner than was anticipated.

The family of a foreigner employed at Port Dalny arrived here Monday, having made the trip in eighteen days. One of the members said all noncombatants had been ordered from Dalny and that Port Arthur was provisioned for eight months.

It is rumored that the czar may take personal command of the land operations in the far East.

Korean Court Donates Money.

Tokio, March 1.—The Korean court has donated \$100,000 to the Red Cross ships. The ministers of the United States and Great Britain at Seoul are favorably inclined toward the Japanese-Korean protocol.

BRITISH WARSHIP ASHORE.

Flagship of North Pacific Squadron in a Bad Position.

Omaha, March 1.—Charles Bratton of Red Oak, Ia., Monday jumped from the Missouri river bridge and was drowned. Bert Redding, a companion, jumped into the river and attempted to save Bratton and came near losing his own life.

RED LAKE INDIAN LANDS.

President Roosevelt Favors Selling Them at Auction.

Washington, March 1.—Some excellent lands, including twelve townships of Red Lake reservation in Northwestern Minnesota and a part of the Rosebud reservation—about 416,000 acres—in Gregory county, South Dakota, will be opened for settlement in a few months. President Roosevelt has conceived the idea that it would be to the interest of the government to adopt the plan of disposing of the land by auction. No decision as to the method of sale has been determined upon, but it is not improbable that in his proclamation announcing the opening of the lands to settlement the president may prescribe how they shall be sold.

Messenger Boys Enjoined.

Chicago, March 1.—A temporary injunction was issued Monday by Judge Kohlsaat in the United States district court, restraining the messenger boys of the Illinois District Telegraph company, who went out on strike last Friday night, from interfering with the delivery or collection of interstate telegraph messages.

Richmond, Va., March 1.—In a wrestling match here between M. J. Dwyer, American middleweight champion, and Joe Carroll, the English middleweight champion, Dwyer won by two falls out of three.

TELEGRAPHIC BREVITIES.

In many parts of New York state a veritable blizzard is raging.

Typhoid fever is increasing to an alarming extent in Minneapolis.

The flood situation in Fremont, O., is serious. Front street is like a river and basements are flooded.

Mrs. Pureheart Wakeley, the oldest woman in Minnesota, is dead of pneumonia at Sharon, Minn., aged 111 years.

Johnny Reagan of Brooklyn and Clarence Forbes of Chicago fought twenty rounds to a draw at Kansas City Monday night.

Fred Moll, a wealthy farmer, aged thirty-seven years, was struck by a Wisconsin Central passenger train at Emerald, Wis., and killed.

Edward P. Nilson, until Feb. 1 cashier of the Anamossee (N. D.) State bank, is said to be short in his accounts about \$2,000. A warrant is out for his arrest.

Because of alleged opposition to the negro postmaster of Humphreys, Ark., the postoffice building there was dynamited and completely destroyed Monday by unidentified persons.

Sylvester Crouch, a fourteen-year-old inmate of the state industrial school at Lancaster, Pa., died Monday of heart failure after having been spanked for an infraction of the rules.

Secretary of War Taft, spoke on "The Good Which Protestant Missions Can Do and Are Doing in the Philippines" at the fifteenth annual dinner of the Presbyterian Social Union at Philadelphia.

EXTERMINATE MOROS

AMERICAN TROOPS WIPE OUT A BAND OF SIX HUNDRED ON ISLAND OF JOLO.

ENTIRE FORCE IS DESTROYED

HASSAN'S INSURGENTS TWICE DECLINED TO ACCEPT CHANCE TO SURRENDER.

Washington, March 1.—General Wade, in a cablegram to the war department dated Manila, advises the department of a report of General Wood concerning an engagement at Jolo on Feb. 14 with the remnants of Hassan's Cotta Moros. The American expedition was in charge of Major Hugh L. Scott. During the fight, General Wood states, firing twice was stopped to give the Moros a chance to surrender, but they declined. The entire body, he adds, with the exception of Hassan, is either dead or captured and Hassan is located. Second Lieutenant Eugene R. West, Eighth battery, field artillery, was seriously wounded in the thigh. A number of troops were also wounded.

Friendly dattos, states General Wade, assisted the troops in the attack.

It is said at the war department that this destruction of Hassan's band is a case of retributive justice. Major Scott suffered at the hands of this fanatical Moro. The chief enticed the major off into the jungle, pretending to be friendly, and in ambush shot him. Since that time Major Scott has been on the trail and now has destroyed his band. Hassan, who is a priest, is one of the irreconcilables. When the navy was making some surveys a year ago off the coast of Jolo, Hassan construed the setting up of survey marks as an act of hostility and attacked the troops. He came into General Sumner's headquarters under summons, but made his escape and ever since has been at war. His band is believed to have numbered 600 and if entirely destroyed, as the cablegram reports, the battle must have been of some proportions.

BELOW THE DOLLAR MARK.

Increase in Russian Shipments Forces Price of Wheat Down.

Chicago, March 1.—An increase in Russian shipments of wheat, notwithstanding the war, forced the price for May delivery back past the dollar mark Monday. The market touched 99½¢ in the midst of excitement paralleling the remarkable scenes which attended the spectacular leap across the line ten days ago. Pork slumped more than \$1 a barrel. Compared with Saturday's final figures, the close Monday was 2½¢ off for May wheat and 2¢ off for July. May corn closed unchanged. Oats are down ¼¢. Provisions show a net loss of 10¢.

Under an avalanche of commission house selling which set in shortly after the opening, the wheat market went to pieces, extreme weakness prevailing the greater part of the day. The close was fairly steady at the decline, with May at \$1.01. July closed at 94½¢.

IN FAVOR OF SQUATTERS.

Federal Supreme Court Decides Minnesota Iron Lands Case.

Washington, March 1.—One of the most important legal cases ever decided in relation to the property rights in Minnesota was finally disposed of by the United States supreme court Monday. There were, in fact, two cases, but they represented substantially the same issues, being the suit in ejectment brought by the Security and Development company against Burns and Wickey to determine the ownership of valuable iron lands around Clear Lake, in the northern part of Minnesota. The decision Monday, which involves many millions of dollars, was in favor of Burns and Wickey, two of the six or seven squatters on the iron properties in question. The case had already been decided by the supreme court of Minnesota in favor of the settlers.

STORMS IN TWO STATES.

Wisconsin and Michigan Swept by Fierce Blizzards.

Milwaukee, March 1.—A special to the Sentinel from Bessemer, Mich., says Lake Superior is frozen over at that point, something that has not occurred before in the memory of the oldest inhabitants.

The Michigan Central railroad has abandoned all trains between Bay City and Mackinac. The worst snow storm of twenty-five years is raging. At Standish, Grayling and Sterling the drifts are ten feet deep.

A severe blizzard is raging in Northern and Western portions of Wisconsin, seriously impeding traffic.

KRUGER IN GOOD HEALTH.

Former President of the Transvaal Better Than for Some Time.

Mentone, France, March 1.—Contrary to the alarming rumors circulating in regard to the health of Mr. Kruger, former president of the Transvaal, Dr. Huismans, his physician, says that not for some years has the health of Mr. Kruger been as good as it is at present. He takes his usual daily walks.

NEGRO DINED WITH CLEVELAND.

Mr. Scott of Kansas Makes the Statement in the House.

Washington, March 1.—During consideration of the District of Columbia appropriation bill in the house Monday Mr. Scott (Kan.) made the declaration that a negro had dined at the White House with President Cleveland during the latter's first administration. The statement was prompted by a reference by Mr. Gilbert (Ky.) to the dining of Booker Washington at the White House. When the name was demanded Mr. Scott said it was C. H. Taylor, who was appointed by President Cleveland as recorder of deeds for the District of Columbia. Mr. Gilbert observed that he and others had never heard of the incident, but the Democrats were "not particularly claiming" Mr. Cleveland and Mr. Cochran (Mo.) said it was but cumulative evidence that "there is no better Republican in the country than Grover Cleveland."

A discussion of the question of reciprocity by Mr. Dazell (Pa.) and Mr. Williams, the minority leader, consumed the greater portion of the day. Another feature of the day was the declaration by Mr. Lovering (Mass.) that while the Republican party was talking about "standing pat," thousands of dollars were being lost to manufacturers and that "our boasted prosperity is fast coming to an end," because of the failure of the party to enlarge the drawback system and give the new markets which he declared were now demanded. Mr. Lovering was loudly applauded on the minority side when he took issue with his party.

ARCHITECTURAL CHANGES.

Those in the White House Criticised by Senators.

Washington, March 1.—The architectural changes made in the White House were the subject of a large share of Monday's discussion in the senate and they were generally criticised as falling far short of the improvements which should have been secured with the \$500,000 appropriated for the purpose. The discussion arose in connection with the consideration of the bill providing for the erection of a building for the joint use of the departments of state, justice and commerce and labor. Consideration of the bill was not concluded.

PREPARED BY SECRETARY TAFT.

Representative Cooper Introduces a Bill Affecting the Philippines.

Washington, March 1.—Representative Cooper of Wisconsin has introduced a bill amending in several important ways the act providing a civil form of government for the Philippines. The bill was prepared by Secretary Taft. It provides that all bonds issued by the government of the Philippines shall be exempt from taxation either by the government of the United States or that of the Philippines. Five per cent bonds are authorized to provide for port and harbor works, roads, bridges, provincial and municipal schools, courts and penal institutions. Five per cent municipal bonds also are authorized to carry on municipal improvements.

The bill provides that the immigration laws of the United States in force in the islands shall be administered by the officers of the Philippine government. The measure also guarantees 4 per cent interest on all money actually invested in railroads.

TWELVE LIVES LOST

ELEVEN CHILDREN AND A WOMAN PERISH IN A FIRE AT ST.

FÉLICIEN, CAN.

Roberval, Que., March 1.—Twelve lives were lost in a fire which destroyed the home of Thomas Guay at St. Felicien Monday. When the fire was first noticed by neighbors who live at some distance, the house had been burned to the ground. In it at the time were the eight small children of Thomas Guay, Mrs. Phillip Gagnon and her three small children. All were burned to death.

RESULT OF PORT ARTHUR FIGHT.

American Battleships to Be Equipped With Torpedo Tubes.

Washington, March 1.—Important to the efficiency of the American navy was the action of Secretary Moody Monday in signing the order for the equipping of the eighteen battleships and armored cruisers now building with submerged torpedoes. The board of construction recently decided to omit torpedo tubes from all battleships, but there was such a protest from officers in the navy that at the instance of the secretary the board reconsidered its decision. It is believed that the torpedo tubes with which the Japanese battleships are equipped are responsible for the damage to the Russian battleships in the Port Arthur day attack, as the Russian vessels were hit below the water line.

RICHES TURNED HIS BRAIN.

Teamster Becomes a Millionaire and Goes Insane.

Milwaukee, March 1.—A special to the Sentinel from Bessemer, Mich., says: James Colgate, laborer and millionaire of Hurley, has been taken to the insane hospital at Newberry. Until recently Colgate, who is twenty years old, was a mine teamster. Then his grandfather, James Colgate, Sr., died in New Haven, Conn., and left him \$1,000,000. Sudden riches turned the boy's brain and he may never recover sufficiently to enjoy his good fortune.

TO SURRENDER.

Washington, March 1.—General Wade, in a cablegram to the war department dated Manila, advises the department of a report of General Wood concerning an engagement at Jolo on Feb. 14 with the remnants of Hassan's Cotta Moros. The American expedition was in charge of Major Hugh L. Scott. During the fight, General Wood states, firing twice was stopped to give the Moros a chance to surrender, but they declined. The entire body, he adds, with the exception of Hassan, is either dead or captured and Hassan is located. Second Lieutenant Eugene R. West, Eighth-eighth battery, field artillery, was seriously wounded in the thigh. A number of troops also were wounded.

Friendly dattos, states General Wade, assisted the troops in the attack.

It is said at the war department that this destruction of Hassan's band is a case of retributive justice. Major Scott suffered at the hands of this fanatical Moro. The chief enticed the major off into the jungle, pretending to be friendly, and in ambush shot him. Since that time Major Scott has been on the trail and now has destroyed his band. Hassan, who is a priest, is one of the irreconcilables. When the navy was making some surveys a year ago off the coast of Jolo, Hassan construed the setting up of survey marks as an act of hostility and attacked the troops. He came into General Sumner's headquarters under summons, but made his escape and ever since has been at war. His band is believed to have numbered 600 and if entirely destroyed, as the cablegram reports, the battle must have been of some proportions.

BELOW THE DOLLAR MARK.

Increase in Russian Shipments Forces Price of Wheat Down.

Chicago, March 1.—An increase in Russian shipments of wheat, notwithstanding the war, forced the price for May delivery back past the dollar mark Monday. The market touched 99¢ in the midst of excitement paralleling the remarkable scenes which attended the spectacular leap across the line ten days ago. Pork slumped more than \$1 a barrel. Compared with Saturday's final figures, the close Monday was 2½¢ off for May wheat and 2½¢ for July. May corn closed unchanged. Oats are down ¼¢. Provisions show a net loss of 10¢75c.

Under an avalanche of commission house selling which set in shortly after the opening the wheat market went to pieces, extreme weakness prevailing the greater part of the day. The close was fairly steady at the decline, with May at \$1.01. July closed at 94½¢.

IN FAVOR OF SQUATTERS.

Federal Supreme Court Decides Minnesota Iron Lands Case.

Washington, March 1.—One of the most important legal cases ever decided in relation to the property rights in Minnesota was finally disposed of by the United States supreme court Monday. There were, in fact, two cases, but they represented substantially the same issues, being the suit in ejectment brought by the Security and Development company against Burns and Wickey to determine the ownership of valuable iron lands around Clear Lake, in the northern part of Minnesota. The decision Monday, which involves many millions of dollars, was in favor of Burns and Wickey, two of the six or seven squatters on the iron properties in question. The case had already been decided by the supreme court of Minnesota in favor of the settlers.

STORMS IN TWO STATES.

Wisconsin and Michigan Swept by Fierce Blizzards.

Milwaukee, March 1.—A special to the Sentinel from Bessemer, Mich., says Lake Superior is frozen over at that point, something that has not occurred before in the memory of the oldest inhabitants.

The Michigan Central railroad has abandoned all trains between Bay City and Mackinac. The worst snow storm of twenty-five years is raging. At Standish, Grayling and Sterling the drifts are ten feet deep.

A severe blizzard is raging in Northern and Western portions of Wisconsin, seriously impeding traffic.

KRUGER IN GOOD HEALTH.

Former President of the Transvaal Better Than for Some Time.

Mentone, France, March 1.—Contrary to the alarming rumors circulating in regard to the health of Mr. Kruger, former president of the Transvaal, Dr. Hulsmans, his physician, says that not for some years has the health of Mr. Kruger been as good as it is at present. He takes his usual daily walks.

NEGRO DINED WITH CLEVELAND.

Mr. Scott of Kansas Makes the Statement in the House.

Washington, March 1.—During consideration of the District of Columbia appropriation bill in the house Monday Mr. Scott (Kan.) made the declaration that a negro had dined at the White House with President Cleveland during the latter's first administration. The statement was prompted by a reference by Mr. Gilbert (Ky.) to the dining of Booker Washington at the White House. When the name was demanded Mr. Scott said it was C. H. J. Taylor, who was appointed by President Cleveland as recorder of deeds for the District of Columbia.

Mr. Gilbert observed that he and others had never heard of the incident, but the Democrats were "not particularly claiming" Mr. Cleveland and Mr. Cochran (Mo.) said it was but cumulative evidence that "there is no better Republican in the country than Grover Cleveland."

A discussion of the question of reciprocity by Mr. Dalzell (Pa.) and Mr. Williams, the minority leader, consumed the greater portion of the day. Another feature of the day was the declaration by Mr. Lovering (Mass.) that while the Republican party was talking about "standing pat," thousands of dollars were being lost to manufacturers and that "our boasted prosperity is fast coming to an end," because of the failure of the party to enlarge the drawback system and give the new markets which he declared were now demanded. Mr. Lovering was loudly applauded on the minority side when he took issue with his party.

ARCHITECTURAL CHANGES.

Those in the White House Criticised by Senators.

Washington, March 1.—The architectural changes made in the White House were the subject of a large share of Monday's discussion in the senate and they were generally criticised as falling far short of the improvements which should have been secured with the \$500,000 appropriated for the purpose. The discussion arose in connection with the consideration of the bill providing for the erection of a building for the joint use of the departments of state, justice and commerce and labor. Consideration of the bill was not concluded.

PREPARED BY SECRETARY TAFT.

Representative Cooper Introduces a Bill Affecting the Philippines.

Washington, March 1.—Representative Cooper of Wisconsin has introduced a bill amending in several important ways the act providing a civil form of government for the Philippines. The bill was prepared by Secretary Taft. It provides that all bonds issued by the government of the Philippines shall be exempt from taxation either by the government of the United States or that of the Philippines. Five per cent bonds to the amount of \$10,000,000 are authorized to provide for port and harbor works, roads, bridges, provincial and municipal schools, courts and penal institutions. Five per cent municipal bonds also are authorized to carry on municipal improvements.

The bill provides that the immigration laws of the United States in force in the islands shall be administered by the officers of the Philippine government. The measure also guarantees 4 per cent interest on all money actually invested in railroads.

PERISH IN A FIRE AT ST.

FELICIEN, CAN.

Roberval, Que., March 1.—Twelve lives were lost in a fire which destroyed the home of Thomas Guay at St. Felicien Monday. When the fire was first noticed by neighbors who live at some distance, the house had been burned to the ground. In it at the time were the eight small children of Thomas Guay, Mrs. Philip Gagnon and her three small children. All were burned to death.

RESULT OF PORT ARTHUR FIGHT.

American Battleships to Be Equipped With Torpedo Tubes.

Washington, March 1.—Important to the efficiency of the American navy was the action of Secretary Moody Monday in signing the order for the equipping of the eighteen battleships and armored cruisers now building with submerged torpedoes. The board of construction recently decided to omit torpedo tubes from all battleships, but there was such a protest from officers in the navy that at the instance of the secretary the board reconsidered its decision. It is believed that the torpedo tubes with which the Japanese battleships are equipped are responsible for the damage to the Russian battleships in the Port Arthur day attack, as the Russian vessels were hit below the water line.

RICHES TURNED HIS BRAIN.

Teamster Becomes a Millionaire and Goes Insane.

Milwaukee, March 1.—A special to the Sentinel from Bessemer, Mich., says:

James Colgate, laborer and millionaire of Hurley, has been taken to the insane hospital at Newberry. Until recently Colgate, who is twenty years old, was a mine teamster. Then his grandfather, James Colgate, Sr., died in New Haven, Conn., and left him \$1,000,000.

Sudden riches turned the boy's brain and he may never recover sufficiently to enjoy his good fortune.

British Naval Programme.

London, March 1.—In introducing the naval estimates in the house of commons, Ernest G. Prettyman, secretary to the admiralty, justified the increase in the estimates on the ground that the two powers standard must be maintained. Great Britain's navy is to have sixty-three first-class battleships.

Messages of War.

Among the natives of Australia notched and carved sticks are used for messages. For instance, a piece of wood carried from one village to another with straight and curved lines cut upon it is a message of war and means: "There is a fight on hand. Fetch your spears and boomerangs."

The North American Indians utilized wampum belts from time immemorial for like purposes. The arrangement of the different colored beads conveyed the signification desired.

JAPANESE WARSHIPS SHELL PORT ARTHUR

MAINTAIN A FURIOUS BOMBARD-
MENT OF THE RUSSIAN POSI-
TION FOR TWO HOURS.

CRUISERS MEET THE ATTACK

NOVIK, ASKOLD AND BAYAN COM-
PELLED TO FLEE BEFORE
THE JAPANESE FIRE.

SINK RUSSIAN TORPEDO BOAT

JAPS ALSO DAMAGE TWO CRUIS-
ERS AND THE STRANDED BAT-
TLESHIP RETVIZAN.

London, March 1.—A dispatch to the Daily Telegraph from Yinkow, dated Feb. 29, says: "Fifteen Japanese warships furiously bombarded Port Arthur from 10 until 12 o'clock this morning. The Russian cruisers Novik, Askold and Bayan, accompanied by four torpedo boats, steamed out to meet the attack. They were, however, forced to retire. The Askold was in a sinking condition. The Novik was badly damaged and a torpedo boat was sunk. The Russian battleship Retvizan was again damaged. The Japanese withdrew in good order."

A rumor is current that the Japanese are making a vigorous attack upon Port Arthur by land and sea and Russia has lost more vessels.

ADOPT SAME OLD TACTICS.

Japs Make a Flying Attack Upon Port Arthur.

London, March 1.—The pause in the war operations in the far East has been broken by another Japanese attack on Port Arthur, of which only a brief account is yet to hand. This report, however, shows a repetition of the now familiar tactics of Japan and it is presumed that this attack was made in bad weather, previous telegraphic advices having reported a severe gale raging at Port Arthur. As usual the Japanese did not remain long enough off the harbor to enable the gunners at the forts to get their range. Again, also, the same three cruisers, the Bayan, the Askold and the Novik, came out to meet the attack, and this suggests that either they were the only effective ships there or that the larger battleships were unable to get out.

RUSSIANS PUT TO FLIGHT.

Japs Win First Clash on Land at Pingyang, Korea.

Tokio, March 1.—The first shots of the war on land were exchanged Sunday at Pingyang. A small detachment of Russian infantry, evidently scouts, appeared to the northward of the town. The Japanese outposts opened fire from a range of 1,700 metres and the Russians retired. The telegram reporting the incident fails to mention any casualties. It is presumed there were none, on account of the small number of men engaged and the distance separating the opposing armies. It is reported here that there will be a small engagement soon somewhere in Northern Korea, where the Russians are scouting over an extended area, close to the Japanese positions, but a general engagement is not expected to occur for some time. The Russian force south of the Yalu river

is inconsiderable, its greatest strength seeming to be in the vicinity of Wiju. North of the Yalu the Russian army is constantly increasing in numbers and is being mobilized, but the chances of its assuming the offensive are slight.

The Japanese army is constantly strengthening its position and increasing its force in Korea.

PROBABLY BLOCKADED BY JAPS.

No News From Vladivostok for About a Week.

St. Petersburg, March 1.—Direct confirmation of the report from Hako-date that Vladivostok is blockaded by the Japanese vessels cannot be obtained, but is considered not improbable.

During the Japanese landing operations in Korea the Russian warships to the north were a constant menace and blockading them would be the most effective means of securing noninterference. Furthermore, it is worthy of note that for more than one week no word has been allowed to come from Vladivostok, and this, in itself, seems strong presumptive evidence that important events are transpiring.

RETURNING TO THE BALTIC.

Admiral Wirusen's Squadron to Remain There Until June.

Paris, March 1.—The St. Petersburg correspondent of the Echo de Paris confirms the report that the Russian squadron under Admiral Wirusen, last reported in the Red Sea, is returning to Libau, Courland, and says it will remain in the Baltic until June.

RUSSIANS REACH THE YALU.

Mounted Infantry and Artillery Hold Mountain Passes South of Wiju.

Tientsin, March 1.—Twenty-five hundred Russian troops are reported to have reached the Yalu, and two regiments of mounted infantry, with artillery, hold the mountain passes, some thirty-five miles south of Wiju.

TO PREVENT JAPS LANDING.

Cossacks Advancing Along the East Coast of Korea.

London, March 1.—The Shanghai correspondent of the Daily Express says it has been officially announced that the Japanese mail boat service between Shanghai and Japan will resume Saturday without naval escort. Many alleged dispositions of the opposing military forces are published here, but they differ too much in detail to be of any great value.

According to a report from St. Petersburg a body of Cossacks from the South Usuri province, with quick-firing guns, is advancing along the east coast of Korea to prevent the landing of the main Japanese army and the comment is made that possibly the reported Japanese landing at Fossiet Bay may have been made with the intention of attacking this force.

A dispatch from Shanghai says the Russians are transferring the guns from their disabled ships at Port Arthur to the forts there.

A dispatch from Chefoo says a Japanese cruiser and torpedo boat entered that harbor without lights at 1 o'clock a. m. Feb. 29, and it is believed they embarked the Japanese who took refuge there after the attempt to bottle up Port Arthur.

A correspondent of the Times at Weihaiwei says a Japanese fleet was seen off the Shantung coast Feb. 29.

A Tokio correspondent of the Times cables that the steamers sunk by the Japanese on either side of the Russian battleship Retvizan at Port Arthur partially obstruct the entrance to the harbor.

WILL NOT SURRENDER.

Russian Commander at Port Arthur Says It is Fight to the Finish.

Port Arthur, March 1.—General Stoessel, commander of the garrison here, has issued a general order directing the attention of the troops and inhabitants to the fact that the Japanese intend to land and seize the fortress. The general declares the Japanese consider the seizure of Port Arthur to be a question of national honor and from their obstinate attacks and bombardments of the fortress and bays he can only conclude that the enemy will make every effort to capture the fortress, failing which the Japanese will destroy the railroad and withdraw.

"The enemy, however," proceeds the general order, "is mistaken. Our troops know and the inhabitants are herewith informed by me that we will not yield. We must fight to the finish as I, the commandant, will never give an order to surrender. I bring this to the notice of those less daring and call on all to become convinced of the necessity of fighting to the death. Those who leave without fighting will not save themselves. There is no way out. On three sides there is the sea and on the fourth will be the enemy. There is no means of escape except by fighting."

Notwithstanding the heavy gale which is blowing the lights of Japanese scouting vessels were visible in the offing during the night.

COMMERCIAL TRANSACTION.

Japanese Cable to Guam Would Not Violate American Neutrality.

Washington, March 1.—Thus far the United States government has not received an application from the Commercial Cable company to land a Japanese cable on the island of Guam. The government, however, has been appealed to in a tentative way by representatives of the company so as to ascertain how the application if it were made, No decision has been reached, although in the light of present information there is a manifest disposition

to regard such a request as entirely reasonable and proper. It is considered that the laying of the cable would be purely a commercial transaction and that the granting of permission for laying the cable at Guam would not violate in any sense the position of neutrality which the United States has assumed in regard to the Japanese-Russian conflict.

Russia has made no protest to this government against the granting of permission to land the cable at Guam. What action the United States would take in that event cannot be foretold as it would depend entirely on the circumstances of the concession.

IMPRESSES THE RUSSIANS.

Report That Japs Will Capture Port Arthur at Any Cost on March 1.

St. Petersburg, March 1.—The report from Liaoyang, Manchuria, that the Japanese fleet received orders to attack and capture Port Arthur on March 1 at all costs, coupled with the comparison of the Novoe Vremya, has created a profound impression and has added to the belief that the Japanese possibly intend to commence land and sea operations against Port Arthur sooner than was anticipated.

The family of a foreigner employed at Port Dalny arrived here Monday, having made the trip in eighteen days. One of the members said all noncombatants had been ordered from Dalny and that Port Arthur was provisioned for eight months.

It is rumored that the czar may take personal command of the land operations in the far East.

RED LAKE INDIAN LANDS.

President Roosevelt Favors Selling Them at Auction.

Washington, March 1.—Some excellent lands, including twelve townships of Red Lake reservation in Northwestern Minnesota and a part of the Rosebud reservation—about 416,000 acres—in Gregory county, South Dakota, will be opened for settlement in a few months. President Roosevelt has conceived the idea that it would be to the interest of the government to adopt the plan of disposing of the land by auction. No decision as to the method of sale has been determined upon, but it is not improbable that in his proclamation announcing the opening of the lands to settlement the president may prescribe how they shall be sold.

MARCH came in like a lamb.

NEXT Tuesday is town meetin' day.

THE caucuses for electing delegates to the republican county convention at Brainerd on the 15th inst. will be held in the city and throughout the county on Saturday evening, March 12, at the usual voting places.

DR. WALTER COURTNEY, of this city, has recently been appointed a member of the National Auxiliary Congressional and Legislative Committee of the American Medical Association by the committee on legislation of that organization. The association at present is keenly desirous of securing the appointment of Col. W. C. Gorgas as the sanitary expert on the Panama canal commission, and at the request of the officers of the association the doctor is hustling in this vicinity to bring pressure to bear on the representatives in congress of this community and state to induce the president to make the desired appointment. He also on Monday telegraphed the president direct, requesting such action. Col. Gorgas certainly seems to be the right man for the position, as it was to his efforts that yellow fever was stamped out in Havana and the city was made as healthy as any in America. He also has the unqualified endorsement of the American Medical association which alone should

be sufficient, and undoubtedly will be to secure him the position.

CONGRESSMAN BECKMAN is spending a few days at his home in Little Falls, being called there on business, and in an interview in the Transcript says: "This big district provides a large amount of department work that is of importance to many individuals and interests. There is an especial demand for rural delivery routes, as this district had comparatively few a year or so ago. He has succeeded in getting about seventy new routes established in his district. He has also been successful in securing new pensions and increases from the pension department, and also some special bills for pensioners. The opening of the Indian reservations to settlement and the sale of the pine has been of considerable help to Northern Minnesota. He says that congress is closing the general business of the session rapidly and will probably adjourn early. There will be no legislation on the tariff question at present, but an effort will be made in the early future to revise the tariff laws along protection lines."

TRIBUTE TO THEIR WORTH.

In an editorial in the Hubbard County Enterprise, Editor Cobb replies to an insinuation of the Bemidji Sentinel that one or two local attorneys are disgruntled and would like to displace Judge Spooner as follows:

"Judge Spooner came to the bench by appointment and it was at the time an open question as to what estimate would be placed upon him by the people of the district. That question no longer exists. He came into the judgeship practically a stranger to the fifteenth judicial district. From the very start, in the different counties where he has held terms of court, he has, as judge, presided with such fairness, promptness and ability, that he has won the approval of both attorneys and people. As an attorney of recognized prominence and ability, but who has frequent occasion to practice in the courts of this district, said to the writer not long since: 'You folks who live in this judicial district have every reason to be proud of your judges. McClenahan and Spooner are not only well grounded in the law, but it is evident that they think and act independently of all considerations except the law and the evidence. It is a great satisfaction to me to know that my cases, when I come into this district,

are going to be judged by the judges, solely on their value as to equity. They will meet with just the consideration that they deserve and no more.' Judge McClenahan by common consent long ago established a reputation for both ability and fairness among the judges of the state, that it would be foolhardy on the part of anyone to assail. Added to these, his personal qualities are those of the self-poised gentleman and his unvarying courtesy and kindness have for him a warm place in the hearts and minds of his constituency that it would compel stronger reasons than are anywhere apparent to displace him from the position he so admirably fills. The people are aware of the value of these two officials. It may be that some one will have the hardihood to come out as a candidate against them, but the record of both McClenahan and Spooner has been so satisfactory that the voters will make their election practically unanimous."

A very pleasant time was had at the home of Mr. and Mrs. M. J. Williams in East Brainerd on the evening of Feb. 29 the event being Mr. Williams' thirty-fifth birthday anniversary. As Mr. Williams birthday only comes every leap year, the event was made doubly interesting. The guests including friends and neighbors played flinch until a late hour after which a fine luncheon was served by Mrs. Williams. Mr. Williams was the recipient of a fine leather bottom rocking chair from friends and neighbors, and William Sadler made an interesting presentation speech. A very nice pair of cuff buttons came from Sheriff and Mrs. Erickson, a half dozen silk handkerchiefs from Mrs. Williams and a dozen good cigars from J. A. Arnold. The rooms were beautifully decorated for the occasion in designs of hearts and diamonds and the tally cards were also of the same character. This was one of the most pleasing social gatherings of the season and all who were present wished that Mr. Williams' birthday came oftener than every leap year.

INDIA RUBBER.

The Second Voyage of Columbus Gave It Publicity.

The first notice of india rubber dates back 500 years, when Herrera, a Spanish historian, during the second voyage of Columbus, saw that "the natives of Haiti played with balls made of the gum of a tree, which were lighter and bounced better than the wind balls of Castile."

In a record published in Madrid, 1615, we are told: "There is a tree which the Indians call ulequahuiti, very high, with round, ashy gray leaves. It yields a milky substance, thick and gummy, in great abundance, which is collected and allowed to settle in calabashes and afterward softened in hot water or smeared over the body and rubbed off when sufficiently dry."

Even at that early date Spaniards used the juice of the ule tree to waterproof their cloaks.

The first accurate account of these gum elastic or caoutchouc trees was furnished by La Condamine, who was sent in 1735 by the French government to measure an arc of the meridian near Quito.

It was introduced into Europe as a drug about 1730, and some fifty years later was used commercially as rubber for pencil marks and to waterproof clothing.

MILITARY STORIES.

A Soldier Who Was Punished and a Bugler Who Was Excused.

From one of the French naval ports comes an interesting story of an incident which recently occurred there. A general holding a high command made his appearance suddenly at the barracks of an infantry regiment, which, in obedience to his orders, was promptly drawn up in the yard. Then he explained the reason in a brief address. He said that as he was walking in the town attired in mufti on the previous day a man belonging to the corps, who was the worse for liquor, accosted him rudely and asked him to stand him a drink. "Let him step out of the ranks," he concluded. Immediately a bugler emerged and, saluting, said, "It is I, mon general."

The incident is characteristic, and apropos of it we are reminded of such an adventure which befell a certain French marshal. A grenadier who was exasperated at some injustice that had been done him pointed his pistol at the marshal and pulled the trigger, but it did not go off. Without moving a muscle the veteran cried, "Four days in the cells for keeping your arms in a bad state!"

The bugler's honesty can scarcely have failed to be an extenuation of his offense in the eyes of the general.

Playing Safe.

"Look here, sir! You have been calling on my daughter every night for the past six months!"

"But I can't afford to get married, sir, and if I call on any other girl I'm afraid I might fall in love with her!"—Smart Set.

What Did She Mean?

Allice—Yes, I accepted George at once. I knew when he proposed to me he was wholly unselfish. Bertha—Oh, nobody could ever have any doubt about that!—Boston Transcript.

TUESDAY, MARCH 1, 1904

Weather

Forecast—Partly cloudy with falling temperature.

Temperature (Record kept by Dr. J. L. Camp from 7 a. m. yesterday morning to 7 a. m. this morning)—Maximum 17 above zero; minimum 32 above zero.

MARCH came in like a lamb.

NEXT Tuesday is town meetin' day.

The caucuses for electing delegates to the republican county convention at Brainerd on the 15th inst. will be held in the city and throughout the county on Saturday evening, March 12, at the usual voting places.

DR. WALTER COURTNEY, of this city, has recently been appointed a member of the National Auxiliary Congressional and Legislative Committee of the American Medical Association by the committee on legislation of that organization. The association at present is keenly desirous of securing the appointment of Col. W. C. Gorgas as the sanitary expert on the Panama canal commission, and at the request of the officers of the association the doctor is hustling in this vicinity to bring pressure to bear on the representatives in congress of this community and state to induce the president to make the desired appointment. He also on Monday telegraphed the president direct, requesting such action. Col. Gorgas certainly seems to be the right man for the position, as it was to his efforts that yellow fever was stamped out in Havana and the city was made as healthy as any in America. He also has the unqualified endorsement of the American Medical association which alone should

be sufficient, and undoubtedly will be to secure him the position.

CONGRESSMAN BECKMAN is spending a few days at his home in Little Falls, being called there on business, and in an interview in the Transcript says: "This big district provides a large amount of department work that is of importance to many individuals and interests. There is an especial demand for rural delivery routes, as this district had comparatively few a year or so ago. He has succeeded in getting about seventy new routes established in his district. He has also been successful in securing new pensions and increases from the pension department, and also some special bills for pensioners. The opening of the Indian reservations to settlement and the sale of the pine has been of considerable help to Northern Minnesota. He says that congress is closing the general business of the session rapidly and will probably adjourn early. There will be no legislation on the tariff question at present, but an effort will be made in the early future to revise the tariff laws along protection lines."

TRIBUTE TO THEIR WORTH.

In an editorial in the Hubbard County Enterprise, Editor Cobb replies to an insinuation of the Bemidji Sentinel that one or two local attorneys are disgruntled and would like to displace Judge Spooner as follows:

"Judge Spooner came to the bench by appointment and it was at the time an open question as to what estimate would be placed upon him by the people of the district. That question no longer exists. He came into the judgeship practically a stranger to the fifteenth judicial district. From the very start, in the different counties where he has held terms of court, he has, as judge, presided with such fairness, promptness and ability, that he has won the approval of both attorneys and people. Bert Colwell was brought down from Aitkin this afternoon and taken to St. Joseph's hospital. He broke his leg yesterday while working in the woods.

Chas. McDonald, who has been at St. Joseph's hospital for some time, after undergoing an operation for appendicitis, was able to leave today and will room with his cousin, H. P. Dunn, for a short time before returning to his home at Mandan.

Dr. Avery, of Aitkin, passed through the city this afternoon with Mrs. Avery, who will be operated on at Minneapolis for appendicitis. Mrs. Avery has had but one or two attacks and her many friends here and in Aitkin hope that the operation will be successful.

George F. Gallagher and Jesse F. Dwyer, of Minneapolis, are on their way to the Philippines, where the former will act as a lieutenant in the island constabulary and the latter has a position as lieutenant in the marine corps. Both of the men served in the islands during the Spanish war as members of the Thirtieth Minnesota regiment.—Minneapolis Journal.

Arrangements practically were completed at Duluth Saturday for the formation of a new baseball league to be composed of Duluth, Calumet, Oshkosh, Appleton, Eau Claire, Superior, Hancock, Houghton and Green Bay. Manager Van Praagh, of the Duluth team, who makes the announcement states that Duluth will at once pull out of the Northern league and the new organization will open the season about May 15.—Duluth Herald.

Mr. and Mrs. Wesley Curo came down from Jenkins this morning.

Editor Schraeder came down from Pequot this morning on business.

E. M. Everett left today for Seattle, where he expects to work the coming summer.

G. W. Morton, the Kas Kava king, who has been at Johnson's Pharmacy for some time, left this noon for Little Falls.

Mrs. M. E. Bridgeman returned this noon from Minneapolis where she was called a short time ago on account of the sickness of her daughter.

Last night the William Slipp saloon at Aitkin burned entailing quite a heavy loss. The Willard hotel, which was in close proximity was in great danger at one time, was saved by the heroic work of the firemen. The building was owned by Ed. Foley.

Attorney George H. Spear, of Grand Rapids, who has not been in Brainerd for some time, is greeting his many friends here today. He has worked up a good practice at Grand Rapids and is doing well, having made an enviable record as county attorney of Itasca county.

A very pleasant time was had at the home of Mr. and Mrs. M. J. Williams in East Brainerd on the evening of Feb. 29 the event being Mr. Williams' thirty-fifth birthday anniversary. As Mr. Williams birthday only comes every leap year, the event was made doubly interesting. The guests including friends and neighbors played flinch until a late hour after which a fine luncheon was served by Mrs. Williams. Mr. Williams was the recipient of a fine leather bottom rocking chair from friends and neighbors, and William Sadler made an interesting presentation speech. A very nice pair of cuff buttons came from Sheriff and Mrs. Erickson, a half dozen silk handkerchiefs from Mrs. Williams and a dozen good cigars from J. A. Arnold. The rooms were beautifully decorated for the occasion in designs of hearts and diamonds and the tally cards were also of the same character. This was one of the most pleasing social gatherings of the season and all who were present wished that Mr. Williams' birthday came oftener than every leap year.

INDIA RUBBER.

The Second Voyage of Columbus Gave It Publicity.

The first notice of india rubber dates back 500 years, when Herrera, a Spanish historian, during the second voyage of Columbus, saw that "the natives of Haiti played with balls made of the gum of a tree, which were lighter and bounced better than the wind balls of Castile."

In a record published in Madrid, 1615, we are told: "There is a tree which the Indians call ulequahuiti, very high, with round, ashy gray leaves. It yields a milky substance, thick and gummy, in great abundance, which is collected and allowed to settle in calabashes and afterward softened in hot water or smeared over the body and rubbed off when sufficiently dry."

Even at that early date Spaniards used the juice of the ulc tree to waterproof their cloaks.

The first accurate account of these gum elastic or caoutchouc trees was furnished by La Condamine, who was sent in 1735 by the French government to measure an arc of the meridian near Quito.

It was introduced into Europe as a drug about 1730, and some fifty years later was used commercially as rubber for pencil marks and to waterproof clothing.

MILITARY STORIES.

A Soldier Who Was Punished and a Bugler Who Was Excused.

From one of the French naval ports comes an interesting story of an incident which recently occurred there. A general holding a high command made his appearance suddenly at the barracks of an infantry regiment, which, in obedience to his orders, was promptly drawn up in the yard. Then he explained the reason in a brief address. He said that as he was walking in the town attired in mufti on the previous day a man belonging to the corps, who was the worse for liquor, accosted him rudely and asked him to stand him a drink. "Let him step out of the ranks," he concluded. Immediately a bugler emerged and, saluting, said, "It is I, mon general."

The incident is characteristic, and apropos of it we are reminded of such an adventure which befell a certain French marshal. A grenadier who was exasperated at some injustice that had been done him pointed his pistol at the marshal and pulled the trigger, but it did not go off. Without moving a muscle the veteran cried, "Four days in the cells for keeping your arms in a bad state!"

The bugler's honesty can scarcely have failed to be an extenuation of his offense in the eyes of the general.

Playing Safe.

"Look here, sir! You have been calling on my daughter every night for the past six months!"

"But I can't afford to get married, sir, and if I call on any other girl I'm afraid I might fall in love with her."—Smart Set.

What Did She Mean?

HOLDUP ARTIST WAS NABBED

Man Identified as Merrifield Des-
perado is Taken in Tow by
St. Paul Police.

GIVES NAME AS CALDERWOOD

And Answers Description With
That of One of the Men
at Merrifield.

Sheriff O. P. Erickson has succeeded in capturing one of the men who was implicated in the holdup and robbery at Merrifield on a Saturday evening not long ago, when E. Niles' store was entered and at the point of a gun Mr. Niles was ordered to shell out all the ready cash he had on hand.

The sheriff returned to Brainerd yesterday afternoon with a man by the name of O. Calderovetz, who was captured by the police in St. Paul a few nights ago. This man has been identified as one of the men who committed the depredations in this part of the state and made several attempts in other parts of the state. From Merrifield the men went to Jenkins where an attempt was made to rob a store, but they were foiled in the attempt and then turned their faces toward Brainerd. They are said to have arrived in Brainerd in the evening and stopped at the East Hotel. From here they are said to have gone east on the N. P. and they are known to have held up one or two men en route. They were tracked nearly to Grand Rapids by Sheriff Erickson, but finally made their escape in the woods.

The next heard of the two men, at least the authorities were led to believe that they were the two men from the descriptions, was at Shakopee where a large store was robbed and a large amount of money and merchandise was taken.

The following is taken from the St. Paul Dispatch:

"O. Calderovetz, who sometimes assumes the name of Charles Van Solen, was taken back to Brainerd by Sheriff O. P. Erickson, of Crow Wing county, to answer the charge of holding up the store of Postmaster Niles, of Merrifield. He was positively identified by witnesses as one of the men who did the job. Calderovetz was captured by Detectives Daly, Sweeney and Fraser, under instructions from Chief O'Connor, in Minneapolis, Saturday. He has a reputation for being a bad man, and is believed to have been implicated in the hold-up of a store at Hopkins, and Steve McDonough's saloon, Como and Western avenue, Thursday."

This morning at 10 o'clock the prisoner was brought into court and being asked his true name he said it was Ollie Calderwood. He demanded an examination and the hearing was set for a week from today at 2 o'clock. The court could not fix bail as it is out of his jurisdiction in cases of robbery in the first degree.

The man stated after the proceedings were over that he could prove an alibi; that he was working in a logging camp for a man by the name of Munson near Grand Rapids on the date that the robbery is said to have occurred and that he worked there until February 10. The court was inclined to give him all the time he wanted to get his witnesses here and so set the hearing for a week from today. He said that he could bring eight or ten men to Brainerd to prove that he was in camp and working on the date that the robbery is said to have been committed.

Tragedy Averted.

"Just in the nick of time our little boy was saved," writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." TWO FIRMS DECIDE

Upon Location—L. Hohman Will Occupy Keene Nevers Building—J. H. Welliver is Located.

Louis Hohman and J. H. Welliver, two fire victims, have decided on locations and in a short time they will open up again. Mr. Hohman has taken the Keene-Nevers building on Sixth street, formerly occupied by A. Mark, and as soon as his insurance is adjusted he will make arrangements for an entire new stock and elegant new fixtures. Mr. Hohman states that his other place was too small for the business he was doing anyway, and he had about decided to rent another room for his ice cream factory. He will now have his factory in the rear of the room and will still have plenty of room for a first-class store and ice cream parlors. He expects to have one of the most modern and up-to-date stores of the kind in the city.

J. H. Welliver, the tonsorial artist, who was driven from his happy home in the Koop block has also decided on a location. He has rented the basement of the Columbian block and expects to move in at once and will be ready for his customers in a few days.

SOME IMPORTANT MATTERS COME UP

In Chambers Before Judge McClenahan Involving Large Sums of Money.

HEARD HERE BY STIPULATION

Motion by Defendant to Open up the Case of C. Stark vs. D. Dumas.

This is Judge McClenahan's busy day and he has several important matters before him this afternoon, mostly from Itasca county, it having been arranged by stipulation to have the hearings in Brainerd.

The defendant, by his attorney, F. F. Price, of Grand Rapids, in the case of C. Stark vs D. Dumas, moves to open up a partial default so that he may be allowed to show that no partnership ever existed between the two. There is a long series of transactions involved and quite a sum of money, Attorney George H. Spear, of Grand Rapids, appears for the plaintiff.

There is another hearing in a very important trespass case entitled the Vermillion Iron and Pine Land company vs the Itasca Lumber company. This is a suit of some seven years standing and a motion is now made to open up the case on a default. Attorney R. P. Bronson, of Ishpeming, is here to look after the interests of the Vermillion Iron and Pine Land company.

Another case to be tried is that of Farrell vs True et al in which Attorney Price appears for the plaintiff and Attorneys Spears and True appear for the defendant. This involves the title to a piece of land in Itasca county on which there is supposed to be some valuable deposits of mineral.

A suit started for similar causes is that of True vs the Irgens estate et al. Attorneys True and Spear appear for the plaintiff and Attorneys McCarthy and Price appear for the defendant.

There are a large number of witnesses from Itasca county here to attend the hearings.

CURES WITHOUT STOMACH DOSING

Hyomei Cures Catarrh by Simple Breathing—H. P. Dunn & Co. Refund Money if it fails to Cure.

A long stride toward solving the mystery of curing catarrh was taken with the discovery of Hyomei. In fact, the percentage of cures by this treatment proves it equal to the final tests.

The folly of taking medicine into the stomach to cure catarrh of the nose, throat and lungs, has been realized by physicians, but not until Hyomei was known, had they a practical method that would obviate stomach drugging. A complete Hyomei outfit costs but \$1 and consists of a neat pocket inhaler that can be used anywhere without attracting attention, a medicine dropper and a bottle of Hyomei.

Breathing Hyomei through the inhaler, every particle of air that enters the nose, throat and lungs, is charged with the healing balsam that soothes and allays all irritation, kills the catarrhal germs and enriches the blood with additional ozone.

H. P. Dunn & Co. have so much faith in the power of Hyomei to cure catarrh that they are selling it under their personal guarantee to refund the money if it does not give positive relief. 7

MUSIC AND DRAMA.

"THE FATAL WEDDING."

"A play straight from the heart, a story of love and laughter, hate and tears," is the way one critic describes "The Fatal Wedding," the play that will hold the boards at the Brainerd opera house Thursday evening, March 3. The scenes are all laid in New York and are all particularly well mounted, especially "The Pallisades," where a sensational feature is introduced—that of the villain and others swinging a ravine on a rope which is strung across the stage and from which the villain is hurled to death when the rope is cut. The cast is an especially good one.

ALBERTA GALLATIN IN "GHOSTS."

Theatre goers and lovers of the drama will be glad to know that we are at last to see a real Ibsen play, in fact the first to be presented in our city. Manager Walker has secured Miss Alberta Gallatin in a fine production of the great dramatist's "Ghosts." "The Usher" in the New York Dramatic Mirror has this to say of the famous Norwegian dramatist:

"In this country Ibsen's growth in public appreciation is due less to his pretensions as a sociological revealer than to his surpassing skill as a dramatist. His influence is seen in the writings of many of the European and American playwrights; but none of his disciples acknowledged or unadmitted, approaches the craft and art of the rugged old Norseman.

When his plays are presented properly in this country nowadays their drawing powers and their popular spell are potent.

"I owe my whole life to Burdock Blood Bitters. Scrofulous sores covered my body. I seemed beyond cure. B. B. B. has made me a perfectly well woman." Mrs. Chas. Hutton, Berville, Mich.

THE WATER LOTUS.

A Plant That Has the Power of Purifying Standing Water.

There is a plant growing in the southern waters of the United States which possesses the singular property of being able to render the most impure standing water perfectly healthy. The people of Louisiana and Mississippi call it the water lotus.

It consists of leaves about the size of the head of a pin and roots so fine as to escape notice save under a microscopic inspection. Where it grows at all, it covers the water and to the casual observer looks like a coating of green scum. The flowers and seeds are microscopic, so that its appearance in any given locality is not readily accounted for, but wherever it does appear the water beneath is always fit to drink.

So marked is this property that families using the water from bayous where the lotus is abundant are known to have better general health than those taking their drinking water from places where the lotus is not found. It is often transplanted into ponds, bayous and lakes, spreads with wonderful rapidity and never fails to do its work well.—St. Louis Globe-Democrat.

HOMES OF HEALING.

The History of Hospitals Begins With the First Century.

The temple at Epidaurus was founded by Antoninus Pius at the end of the first century A. D. in honor of Esculapius, Homer's blameless physician. Beyond the sacred inclosure was a building for the reception of the sick and dying, which Strabo describes as a place renowned for the cure of all diseases, always full of invalids and containing votive tablets descriptive of cures.

About 380 A. D. a hospital was founded by Valens and richly endowed by him at Cesarea, and another at Rome by Fabiola, a wealthy Roman widow, for the reception of the sick poor.

Basil is said by Gregory, the presbyter, to have built a large hospital for lepers with money collected for the purpose. The Hotel Dieu in Paris, founded in the seventh century, and two founded in 1080 by Lanfranc, archbishop of Canterbury, were both connected with monastic establishments. Bartholomew's, 1547, and St. Thomas', 1553, are the oldest hospitals in London and were both originally religious foundations.

Omens In Tea.

When the tea is made and the lid of the teapot is forgotten for a minute or two it is a sure sign that some one will drop in for the meal. Two spoons put by chance into the saucer of a maid or a bachelor denote that he or she will be married within a year. Putting cream into your tea before you sweeten it will bring you love troubles. A tea stalk floating in a girl's teacup is a "bean." She should stir her tea briskly and then hold the spoon upright in the center. If the "bean" be attracted toward the spoon and cling to it a gentleman visitor may be expected some time that evening. If, however, the "bean" goes to the side of the cup the visitor will not come that day.

Mr. Hohman states that his other place was too small for the business he was doing anyway, and he had about decided to rent another room for his ice cream factory. He will now have his factory in the rear of the room and will still have plenty of room for a first-class store and ice cream parlors. He expects to have one of the most modern and up-to-date stores of the kind in the city.

J. H. Welliver, the tonsorial artist, who was driven from his happy home in the Koop block has also decided on a location. He has rented the basement of the Columbian block and expects to move in at once and will be ready for his customers in a few days.

SOME IMPORTANT MATTERS COME UP

In Chambers Before Judge McClenahan Involving Large Sums of Money.

HEARD HERE BY STIPULATION

Motion by Defendant to Open up the Case of C. Stark vs. D. Dumas.

This is Judge McClenahan's busy day and he has several important matters before him this afternoon, mostly from Itasca county, it having been arranged by stipulation to have the hearings in Brainerd.

The defendant, by his attorney, F. E. Price, of Grand Rapids, in the case of C. Stark vs D. Dumas, moves to open up a partial default so that he may be allowed to show that no partnership ever existed between the two. There is a long series of transactions involved and quite a sum of money, Attorney George H. Spear, of Grand Rapids, appears for the plaintiff.

There is another hearing in a very important trespass case entitled the Vermillion Iron and Pine Land company vs the Itasca Lumber company. This is a suit of some seven years standing and a motion is now made to open up the case on a default. Attorney R. P. Bronson, of Ishpeming, is here to look after the interests of the Vermillion Iron and Pine Land company.

Another case to be tried is that of Farrell vs True et al in which Attorney Price appears for the plaintiff and Attorneys Spears and True appear for the defendant. This involves the title to a piece of land in Itasca county on which there is supposed to be some valuable deposits of mineral.

A suit started for similar causes is that of True vs the Irgens estate et al. Attorneys True and Spear appear for the plaintiff and Attorneys McCarthy and Price appear for the defendant.

There are a large number of witnesses from Itasca county here to attend the hearings.

CURES WITHOUT STOMACH DOSING

Hyomei Cures Catarrh by Simple Breathing—H. P. Dunn & Co. Refund Money if it fails to Cure.

A long stride toward solving the mystery of curing catarrh was taken with the discovery of Hyomei. In fact, the percentage of cures by this treatment proves it equal to the final tests.

The folly of taking medicine into the stomach to cure catarrh of the nose, throat and lungs, has been realized by physicians, but not until Hyomei was known, had they a practical method that would obviate stomach drugging.

A complete Hyomei outfit costs but \$1 and consists of a neat pocket inhaler that can be used anywhere without attracting attention, a medicine dropper and a bottle of Hyomei.

Breathing Hyomei through the inhaler, every particle of air that enters the nose, throat and lungs, is charged with the healing balsam that soothes and allays all irritation, kills the catarrhal germs and enriches the blood with additional ozone.

H. P. Dunn & Co. have so much faith in the power of Hyomei to cure catarrh that they are selling it under their personal guarantee to refund the money if it does not give positive relief. 7

MUSIC AND DRAMA.

"THE FATAL WEDDING."

"A play straight from the heart, a story of love and laughter, hate and tears," is the way one critic describes "The Fatal Wedding," the play that will hold the boards at the Brainerd opera house Thursday evening, March 3. The scenes are all laid in New York and are all particularly well mounted, especially "The Pallisades," where a sensational feature is introduced—that of the villain and others swinging a ravine on a rope which is strung across the stage and from which the villain is hurled to death when the rope is cut. The cast is an especially good one.

ALBERTA GALLATIN IN "GHOSTS."

Theatre goers and lovers of the drama will be glad to know that we are at last to see a real Ibsen play, in fact the first to be presented in our city. Manager Walker has secured Miss Alberta Gallatin in a fine production of the great dramatist's "Ghosts." "The Usher" in the New York Dramatic Mirror has this to say of the famous Norwegian dramatist:

"In this country Ibsen's growth in public appreciation is due less to his pretensions as a sociological revealer than to his surpassing skill as a dramatist. His influence is seen in the writings of many of the European and American playwrights; but none of his disciples acknowledged or unadmitted, approaches the craft and art of the rugged old Norseman.

When his plays are presented properly in this country nowadays their drawing powers and their popular spell are potent.

"I owe my whole life to Burdock Blood Bitters. Scrofulous sores covered my body. I seemed beyond cure. B. B. B. has made me a perfectly well woman." Mrs. Chas. Hutton, Berville, Mich.

THE WATER LOTUS.

A Plant That Has the Power of Purifying Standing Water.

There is a plant growing in the southern waters of the United States which possesses the singular property of being able to render the most impure standing water perfectly healthy. The people of Louisiana and Mississippi call it the water lotus.

It consists of leaves about the size of the head of a pin and roots so fine as to escape notice save under a microscopic inspection. Where it grows at all, it covers the water and to the casual observer looks like a coating of green scum. The flowers and seeds are microscopic, so that its appearance in any given locality is not readily accounted for, but wherever it does appear the water beneath is always fit to drink.

So marked is this property that families using the water from bayous where the lotus is abundant are known to have better general health than those taking their drinking water from places where the lotus is not found. It is often transplanted into ponds, bayous and lakes, spreads with wonderful rapidity and never fails to do its work well.—St. Louis Globe-Democrat.

HOMES OF HEALING.

The History of Hospitals Begins With the First Century.

The temple at Epidaurus was founded by Antoninus Pius at the end of the first century A. D. in honor of Aesculapius, Homer's blameless physician. Beyond the sacred inclosure was a building for the reception of the sick and dying, which Strabo describes as a place renowned for the cure of all diseases, always full of invalids and containing votive tablets descriptive of cures.

About 380 A. D. a hospital was founded by Valens and richly endowed by him at Cesarea, and another at Rome by Fabiola, a wealthy Roman widow, for the reception of the sick poor.

Basil is said by Gregory, the presbyter, to have built a large hospital for lepers with money collected for the purpose. The Hotel Dieu in Paris, founded in the seventh century, and two founded in 1080 by Lanfranc, archbishop of Canterbury, were both connected with monastic establishments. Bartholomew's, 1547, and St. Thomas', 1553, are the oldest hospitals in London and were both originally religious foundations.

Omens In Tea.

When the tea is made and the lid of the teapot is forgotten for a minute or two it is a sure sign that some one will drop in for the meal. Two spoons put by chance into the saucer of a maid or a bachelor denote that he or she will be married within a year. Putting cream into your tea before you sweeten it will bring you love troubles. A tea stalk floating in a girl's teacup is a "bean." She should stir her tea briskly and then hold the spoon upright in the center. If the "bean" be attracted toward the spoon and cling to it a gentleman visitor may be expected some time that evening. If, however, the "bean" goes to the side of the cup the visitor will not come that day.

HOLDUP ARTIST WAS NABBED

Man Identified as Merrifield Des-
perado is Taken in Tow by
St. Paul Police.

GIVES NAME AS CALDERWOOD
And Answers Description With
That of One of the Men
at Merrifield.

Sheriff O. P. Erickson has succeeded in capturing one of the men who was implicated in the holdup and robbery at Merrifield on a Saturday evening not long ago, when E. Niles' store was entered and at the point of a gun Mr. Niles was ordered to shell out all the ready cash he had on hand.

The sheriff returned to Brainerd yesterday afternoon with a man by the name of O. Calderoveitz, who was captured by the police in St. Paul a few nights ago. This man has been identified as one of the men who committed the depredations in this part of the state and made several attempts in other parts of the state. From Merrifield the men went to Jenkins where an attempt was made to rob a store, but they were foiled in the attempt and then turned their faces toward Brainerd. They are said to have arrived in Brainerd in the evening and stopped at the East Hotel. From here they are said to have gone east on the N. P. and they are known to have held up one or two men en route. They were tracked nearly to Grand Rapids by Sheriff Erickson, but finally made their escape in the woods.

The next heard of the two men, at least the authorities were led to believe that they were the two men from the descriptions, was at Shakopee where a large store was robbed and a large amount of money and merchandise was taken.

The following is taken from the St. Paul Dispatch:

"O. Calderoveitz, who sometimes assumes the name of Charles Van Solen, was taken back to Brainerd by Sheriff O. P. Erickson, of Crow Wing county, to answer the charge of holding up the store of Postmaster Niles, of Merrifield. He was positively identified by witnesses as one of the men who did the job. Calderoveitz was captured by Detectives Daly, Sweeney and Fraser, under instructions from Chief O'Connor, in Minneapolis, Saturday. He has a reputation for being a bad man, and is believed to have been implicated in the hold-up of a store at Hopkins, and Steve McDonough's saloon, Como and Western avenue, Thursday."

This morning at 10 o'clock the prisoner was brought into court and being asked his true name he said it was Ollie Calderwood. He demanded an examination and the hearing was set for a week from today at 2 o'clock. The court could not fix bail as it is out of his jurisdiction in cases of robbery in the first degree.

The man stated after the proceedings were over that he could prove an alibi; that he was working in a logging camp for a man by the name of Munson near Grand Rapids on the date that the robbery is said to have occurred and that he worked there until February 10. The court was inclined to give him all the time he wanted to get his witnesses here and so set the hearing for a week from today. He said that he could bring eight or ten men to Brainerd to prove that he was in camp and working on the date that the robbery is said to have been committed.

Tragedy Averted.

"Just in the nick of time our little boy was saved," writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Everybody ought to know it's the only sure cure for coughs, colds and all lung diseases. Guaranteed by H. P. Dunn & Co., druggists. Price 50c and \$1.00. Trial bottles free.

Hunter's Hot Springs.

It is not necessary for residents of the northwest to go to the south and east for hot water pleasure and curative baths.

Near Springdale, Mont., on the Northern Pacific, are Hunter's Hot Springs, temperature 143 degrees to 168 degrees Fahr., flowing 2000 gallons per minute, 4000 feet above the sea in the foothills of the Crazy mountains, overlooking the Yellowstone river and valley. Good hotels, cottages, bath houses, swimming pool. Rates \$2.50 per day, \$15.00 per week, including baths.

Baths are good for all rheumatic, skin, liver and kidney and stomach diseases. Appointments comfortable and satisfactory. Railway rates low. The region is a natural sanatorium.

LOOKING FOR MISCREANTS.

Gang of Young Fellows Got Smart Saturday Night and Smashed Windows in Keene-Nevers Building.

A good sound trouncing or a sentence in the city bastille for ten days would be none to good for the gay youths who got on a drunk Saturday night and with beer bottles started up the alley along side of McIntosh's saloon and threw them at the windows, breaking almost every pane of glass on the north side of the building.

The proprietors of the block would give a "V" to find out who the youngsters were. The police have been notified and they will do all in their power to locate the guilty parties and see that they are punished.

The competition is open to all. The only conditions being that for each five different ways of spelling Egg-O-See you must send in one of the little printed folders, same as used in the school children's drawing contest, found on the inside of each package of Egg-O-See. For instance if you have 15 different spellings it would be necessary to send three folders. Be sure and write your name and address plainly. The spelling must be such as could properly be pronounced Egg-O-See. The school children to whom we have paid thousands of prizes for drawings can all enter into this contest with equal chance of gaining a prize. Save the little folders in the Egg-O-See packages and make out as many ways of spelling as you can, and then ask your parents and friends to add to the list. Here are a few ways of spelling Egg-O-See: Eg-O-Sea, Egg-Oh-Cee, Egg-O-Sy, Eg-O-Cie.

EGG-O-SEE

We offer these prizes to more thoroughly familiarize the people with the merits of Egg-O-See, the best of all flaked wheat foods. It is now generally conceded that flaked wheat is the most healthful and convenient of all foods, and Egg-O-See is displacing 90 per cent of all other kinds, because of its superior quality and cheaper price.

GRANEY STOPS THE FIGHT

REFEREE ENDS THE BATTLE IN
ELEVENTH ROUND AND PRE-
VENTS A KNOCKOUT.

San Francisco, March 1.—Champion Featherweight Young Corbett had no difficulty in retaining his laurels last night, defeating Dave Sullivan of New York in the eleventh round of a scheduled twenty-round contest. Corbett left the ring without a mark, while on the other hand Sullivan received a terrible beating, only the action of Referee Graneley in stopping the contest saving the New Yorker from a knockout. Sullivan put up a game fight and, while outboxed, outfought and outgeneralized, he gave the champion cause for worry in one round. Aside from Sullivan's extraordinary gameness, the contest was never in doubt. Corbett held his man safe during all stages of the contest, and it was but a question of time when Sullivan would have to quit.

The fourth round, nearly saw the end of the fight and only by taking the full count at four different times did Sullivan manage to pull through. The main feature of the fight, which was one-sided, was the great amount of infighting. They hung together for a minute at a time, using either hand they could get free. Corbett proved himself superior in that style of fighting and he seemed to punch harder from a short distance.

Jimmy Britt was an interested spectator at the ringside. The general opinion of the sporting element which has seen both men in action is that Corbett will be the favorite in the betting and that Britt, while giving him a good fight, will not be the winner.

JEFFRIES AND MUNRO MATCHED.

Will Fight at San Francisco for Heavyweight Championship.

New York, March 1.—Jim Jeffries and Jack Munro have signed articles to fight for the heavyweight championship of the world at the Yosemite Athletic club, San Francisco, during the last week in May. A purse of \$25,000 is guaranteed.

GUARDED BY STATE TROOPS.

Negro Under Arrest for Murder and Robbery.

Meridian, Miss., March 1.—Three full companies of state troops now surround the county jail here in which is lodged J. P. Paris, a negro, who is charged with the killing of John R. Stockton, a mail clerk, the serious wounding of J. A. Bass, another mail clerk, and the robbery of the mail car on the Alabama Great Southern train which left this city Monday morning for Birmingham.

Paris was captured early Monday, bloodhounds following a bloody trail, strewn with bits of registered letters, to a negro cabin where Paris was found. As soon as the capture of the supposed bandit was noted abroad there were threatening indications that a mob attempt to lynch him. Governor Vardaman wired Major DeMont of this city to call out the state militia and to protect the negro prisoner at all hazards.

FOR REPUBLICAN CONVENTION.

National Committee Disposes of Matters of Detail.

Washington, March 1.—Preliminary action toward the preparation of the Coliseum building in Chicago for the meeting of the National Republican convention in June was taken Monday when Acting Chairman Payne, Senator Scott, Secretary Dover and Sergeant-at-Arms Stone of the National Republican committee on arrangements approved the architect's plans for seating the delegates in the vast hall. Various other matters of detail were disposed of. The press arrangements will be in the hands of Harry S. New, who will have the co-operation of Major John M. Carson, the chairman of the standing committee of Washington correspondents, in the work to be done.

LANDSLIDE FOR HULL.

Judge Prouty Defeated in Polk County (Ia.) Primaries.

Des Moines, Ia., March 1.—Returns from fifty-one precincts in Polk county, with twenty precincts to hear from, give Captain J. A. T. Hull, candidate for congress, 145 delegates out of 214. Judge Prouty, one of Judge Prouty's managers, concedes the county to Hull by a majority of from 15 to 20. The result of the primaries seems to be a landslide for Captain Hull. The charges made before the primaries that Judge Prouty's organization would be unfair in counting the ballots was not realized.

FOUR SAILORS DROWNED.

Boat Caught Among Ice Floes and Crushed.

Norfolk, Va., March 1.—News has been received here of the drowning of four sailors in Chesapeake bay between the mouth of the Potomac river and Smith's Island. Their rowboat was caught among ice floes and crushed when the men were trying to go ashore for provisions.

Second Joint Scale Conference.

Indianapolis, March 1.—The second session of the joint scale conference between the coal operators and United Mine Workers of the central competitive district opened here during the day. There were present about 800 miners and about the same number of operators as before. The 250 additional miners are here from Michigan, Iowa, Kentucky, West Virginia and the anthracite field.

BARRINGTON ON THE STAND.

Emphatically Denies That He Claimed to Be a Lord.

St. Louis, March 1.—Frederick Seymour Barrington, who is on trial at Clayton on the charge of having murdered James P. McCann, his friend and benefactor, was placed on the stand for a short time before the close of the session. When asked his name he refused to answer, saying he reserved the constitutional right not to incriminate himself. The prisoner emphatically denied representing himself as "Lord Barrington," and said he never claimed his home was at Belmore Castle.

Barrington then described his arrest on the charge of murder and said he was terrified by the conversation of the officers and feared that he was to be lynched without a trial.

Testimony heard from police officers during the day when the jury was withdrawn from the room, was finally ruled admissible by the court. Mrs. McCann is expected to go on the stand today.

Parliamentary Ruling.

"He said he could not help kissing you," whispered the first congressman's daughter. "He said when he sat beside you in the conservatory and looked into your eyes he was moved by an irresistible impulse and simply had to kiss you."

"Did he?" smiled the second congressman's daughter, who was listening with some interest to the apology thus being made for the boldness of the handsome cousin of the other girl.

"Yes, he said it was your eyes that won him, he—"

"Well, he'll have to come around and correct the minutes of that meeting. The eyes won it, but the nose got it."

—Judge.

THE WORD "HUSSAR."

It is Hungarian and Originally Meant a Freebooter.

Hussar is a Hungarian word meaning originally a freebooter or free lance. These men, strong, active, hardy, accustomed to capture and tame herds of wild horses, were brought into military service by Corvinus, the boy king. In 1442 and became the finest body of light cavalry in the world. The suggested derivation from the Magyar—huzsar, twenty, and ar, pay (one horseman raised by twenty families)—is only a fanciful one. The name spread into all armies, and hussars of all nations are distinguished by uniforms of brilliant colors and elaborate ornament. Two characteristics are the dolman and the bushy, with its scarlet cloth attachment, a survival of the narrow Magyar bag, which fell over the left shoulder as a protection against sword cuts.

The word dragoon was first used of a regiment of mounted infantry, so called from the dragons or short muskets with which they were armed. The head of a dragoon, wrought on the muzzle of the muskets, seemed to spit fire and at one time was depicted on their standard.

The easiest way to get along with some people is to let them think they are right.—Aitchison Globe.

ESCHOL SELLERS.

The Original of the Hero of Mark Twain's "Gilded Age."

The real name of the hero of "The Gilded Age" was Eschol Sellers, and he was an inventor and an active promoter very well known in the early days of the new west. His father was one of the first locomotive builders in the United States, with works at Philadelphia. Eschol Sellers and Charles Dudley Warner occupied adjoining houses some years before "The Gilded Age" was written. Sellers at that time was developing a coal field near Shawneetown, Ill., at what was then and is still known as Sellers' Landing. He was also inventing a process afterward largely used in making paper out of Indian weed pulp. He was also experimenting with the camel back engine. Notwithstanding the fact that Sellers' enterprises were destined all to be successful, Charles Dudley Warner conceived the idea that he was a typical visionary dreamer. He therefore suggested the name of Eschol Sellers for the hero of "The Gilded Age," and Mark Twain used the name, believing it to be fictitious. One of the first copies of the book happened to be seen by Eschol Sellers, who went at once to Hartford and enjoined the publication. A compromise was effected by which the publishers paid Sellers \$5,000 for damages and cut all of the plates, removing the name Eschol and substituting that of Mulberry. Eschol Sellers died at a very advanced age at his pleasant home on Missionary ridge, near Chattanooga.—Washington Star.

DOING ONE'S BEST.

It is a Good Character Forming Habit to Cultivate.

This habit of always doing one's best enters into the very marrow of one's heart and character. It affects one's bearing, one's self possession. The man who does everything to a finish has a feeling of serenity. He is not easily thrown off his balance. He has nothing to fear, and he can look the world in the face because he feels conscious that he has not put shoddy into anything, that he has had nothing to do with shams and that he has always done his level best. The sense of efficiency, of being master of one's craft, of being equal to any emergency, the consciousness of possessing the ability to do with superiority whatever one undertakes, will give soul satisfaction which a half hearted, slipshod worker never knows.

When a man feels throbbing within him the power to do what he undertakes as well as it can possibly be done, and all his faculties say "Amen" to what he is doing and give their unqualified approval to his efforts—this is happiness, this is success. This buoyant sense of power spurs the faculties to their fullest development. It unfolds the mental, the moral and the physical forces, and this very growth, the consciousness of an expanding mentality and of a broadening horizon, gives an added satisfaction beyond the power of words to describe. It is a realization of nobility, the divinity of the mind.—Success.

A Crooked Spire.

At Chesterfield, the leaning tower of Pisa not being more interesting to sightseers than the queer kink in a respectable church, which tradition says was caused by the devil kicking out as he passed the spire. The devil had just had his hoofs shod by a local blacksmith, and his pain was so intense the edifice was shaken out of shape. Another and wittier legend says the spire was bowing to a lovely and virtuous bride. Many noted persons have in years gone visited Rowsley and quaint Peacock inn and thence traveled to Chesterfield to gaze on this freak of nature, for natural causes are supposed to have bent the spire rather than an irritable devil whose hoofs were not shod to please him.

Imitating Color Blindness.

One can sometimes imitate the effects of color blindness through over-fatigue of the eye. Thus Mr. Brett, the English painter, told the members of the Royal Astronomical society that in painting a scarlet geranium, after working at it for a quarter of an hour the artist will not know that it is scarlet at all, but will go on painting it as if it were black or colorless. "Red," he explained, "is a very irritant color to the retina," and he added that "you can look at green until all is blue."

Poker Was Once "Scharwenkel."

Germans claim that poker is an old German game, which for more than 100 years has been played and is still being played in some districts of Westphalia. Emigrants took it to the United States, and there its name of "scharwenkel" was changed into "poker."—London Express.

Another Interpretation.

Miss Budd—Didn't I overhear Mr. Phalar remark to you that I was "a pretty young lady?" Miss Chellus—Yes, and you really are pretty young, you know, but you'll outgrow that, of course.—Philadelphia Press.

The Patient's Excuse.

Physician—I told you to come three times a week. Why haven't you been here for five days? Patient—Because I haven't been feeling well enough.—Cincinnati Commercial Tribune.

The Way of It.

Green—You and Short don't seem to be as intimate as you were. Does he owe you money? Brown—No, indeed; but he wanted to.—Cincinnati Enquirer.

Opposition embitters the enthusiast, but never converts him.—Schiller.

Parliamentary Ruling.

"He said he could not help kissing you," whispered the first congressman's daughter. "He said when he sat be- side you in the conservatory and look- ed into your eyes he was moved by an irresistible impulse and simply had to kiss you."

"Did he?" smiled the second congress- man's daughter, who was listening with some interest to the apology thus being made for the boldness of the handsome cousin of the other girl.

"Yes. He said it was your eyes that won him. He—"

"Well, he'll have to come around and correct the minutes of that meeting. The eyes won it, but the nose got it." —Judge.

THE WORD "HUSSAR."

It is Hungarian and Originally
Meant a Freebooter.

Hussar is a Hungarian word mean- ing originally a freebooter or free lance. These men, strong, active, hardy, ac- customed to capture and tame herds of wild horses, were brought into mili- tary service by Corvins, the boy king, in 1442 and became the finest body of light cavalry in the world. The sug- gested derivation from the Magyar- huzst, twenty, and ar, pay (one horse- man raised by twenty families)—is only a fanciful one. The name spread into all armies, and hussars of all na- tions are distinguished by uniforms of brilliant colors and elaborate orna- ment. Two characteristics are the dol- man and the busby, with its scarlet cloth attachment, a survival of the narrow Magyar bag, which fell over the left shoulder as a protection against sword cuts.

The word dragon was first used of a regiment of mounted infantry, so cal- led from the dragons or short muskets with which they were armed. The head of a dragon, wrought on the mu- zle of the muskets, seemed to spit fire and at one time was depicted on their standard.

The easiest way to get along with some people is to let them think they are right.—Atechison Globe.

ESCHOL SELLERS.

The Original of the Hero of Mark
Twain's "Gilded Age."

The real name of the hero of "The Gilded Age" was Eschol Sellers, and he was an inventor and an active pro- moter very well known in the early days of the new west. His father was one of the first locomotive builders in the United States, with works at Phil- adelphia. Eschol Sellers and Charles Dudley Warner occupied adjoining houses some years before "The Gilded Age" was written. Sellers at that time was developing a coal field near Shaw- neetown, Ill., at what was then and is still known as Sellers' Landing. He was also inventing a process after- ward largely used in making paper out of Indian weed pulp. He was also experimenting with the camel back engine. Notwithstanding the fact that Sellers' enterprises were destined all to be successful, Charles Dudley War- ner conceived the idea that he was a typical visionary dreamer. He there- fore suggested the name of Eschol Sellers for the hero of "The Gilded Age," and Mark Twain used the name, believing it to be fictitious. One of the first copies of the book happened to be seen by Eschol Sellers, who went at once to Hartford and enjoined the publication. A compromise was ef- fected by which the publishers paid Sellers \$5,000 for damages and cut all of the plates, removing the name Eschol and substituting that of Mul- berry. Eschol Sellers died at a very advanced age at his pleasant home on Missionary ridge, near Chattanooga.—Washington Star.

DOING ONE'S BEST.

It is a Good Character Forming Hab-
it to Cultivate.

This habit of always doing one's best enters into the very marrow of one's heart and character. It affects one's bearing, one's self possession. The man who does everything to a finish has a feeling of serenity. He is not easily thrown off his balance. He has nothing to fear, and he can look the world in the face because he feels con- scious that he has not put shoddy into anything, that he has had nothing to do with shams and that he has al- ways done his level best. The sense of efficiency, of being master of one's craft, of being equal to any emergency, the consciousness of possessing the abili- ty to do with superiority whatever one undertakes, will give soul satisfaction which a half hearted, slipshod worker never knows.

When a man feels throbbing within him the power to do what he under- takes as well as it can possibly be done, and all his faculties say "Amen" to what he is doing and give their unquali- fied approval to his efforts—this is happiness, this is success. This buoy- ant sense of power spurs the faculties to their fullest development. It un- folds the mental, the moral and the physical forces, and this very growth, the consciousness of an expanding men- tality and of a broadening horizon, gives an added satisfaction beyond the power of words to describe. It is a realization of nobility, the divinity of the mind.—Success.

A Crooked Spire.

The most curious spire in England is at Chesterfield, the leaning tower of Pisa not being more interesting to sightseers than the queer kink in a re- spectable church, which tradition says was caused by the devil kicking out as he passed the spire. The devil had just had his hoofs shod by a local black- smith, and his pain was so intense the edifice was shaken out of shape. An- other and wittier legend says the spire was bowing to a lovely and virtuous bride. Many noted persons have in years gone visited Rowsley and quaint Peacock Inn and thence traveled to Chesterfield to gaze on this freak of nature, for natural causes are sup- posed to have bent the spire rather than an irritable devil whose hoofs were not shod to please him.

Imitating Color Blindness.

One can sometimes imitate the ef- fects of color blindness through over- fatigue of the eye. Thus Mr. Brett, the English painter, told the members of the Royal Astronomical society that in painting a scarlet geranium, after working at it for a quarter of an hour the artist will not know that it is scarlet at all, but will go on painting it as if it were black or colorless. "Red," he explained, "is a very irritant color to the retina," and he added that "you can look at green until all is blue."

Poker Was Once "Scharwenkel."

Germans claim that poker is an old German game, which for more than 100 years has been played and is still being played in some districts of West- phalia. Emigrants took it to the United States, and there its name of "Scharwenkel" was changed into "pok- er."—London Express.

Another Interpretation.

Miss Budd—Didn't I overhear Mr. Phalter remark to you that I was "a pretty young lady?" Miss Chellus—Yes, and you really are pretty young, you know, but you'll outgrow that, of course.—Philadelphia Press.

The Patient's Excuse.

Physician—I told you to come three times a week. Why haven't you been here for five days? Patient—Because I haven't been feeling well enough.—Cincinnati Commercial Tribune.

The Way of It.

Green—You and Short don't seem to be as intimate as you were. Does he owe you money? Brown—No, indeed; but he wanted to.—Cincinnati En- quirer.

Opposition imbitters the enthusiast, but never converts him.—Schiller.

\$1,000 in cash prizes

to the person sending us before June 15, 1904.

The word Egg-O-See

Spelled in the greatest number of ways

Try how many different ways you can spell Egg-O-See and it will be easy for you to get one of the 745 cash prizes running from \$1.00 to \$100. Divided as follows:

To the one sending the greatest variety of spellings	\$100.00
To the second sending the greatest variety of spellings	75.00
To the third sending the greatest variety of spellings	50.00
To the fourth sending the greatest variety of spellings	25.00
To the fifth sending the greatest variety of spellings	10.00
To the 745 sending the next greatest variety of spellings	\$1.00
Total	\$1000.00

The prizes will be sent out immediately after the close of the contest.

The competition is open to all. The only conditions being that for each five different ways of spelling Egg-O-See you must send in one of the little printed folders, same as used in the school children's drawing contest, found on the inside of each package of Egg-O-See. For instance if you have 15 different spellings it would be necessary to send three folders. Be sure and write your name and address plainly. The spelling must be such as could properly be pronounced Egg-O-See. The school children to whom we have paid thousands of prizes for drawings can all enter into this contest with equal chance of gaining a prize. Save the little folders in the Egg-O-See packages and make out as many ways of spelling as you can, and then ask your parents and friends to add to the list. Here are a few ways of spelling Egg-O-See: Eg-O-Sea, Egg-Oh-Cee, Egg-O-Sy, Eg-O-Cie.

Egg-O-See

We offer these prizes to more thoroughly familiarize the people with the merits of Egg-O-See, the best of all flaked wheat foods. It is now generally conceded that flaked wheat is the most healthful and convenient of all foods, and Egg-O-See is displacing 90 per cent of all other kinds, because of its superior quality and cheaper price.

A FULL SIZED PACKAGE RETAILING FOR 10 CENTS.

Ask Your Grocer for the Green Package.

If your grocer does not keep it, send us his name and 10 cents and we will send you a package, prepaid.

CORBETT VICTORIOUS

CHAMPION FEATHERWEIGHT HAS
LITTLE DIFFICULTY IN DE-
FEATING SULLIVAN.

GRANEY STOPS THE FIGHT

REFEREE ENDS THE BATTLE IN
ELEVENTH ROUND AND PRE-
VENTS A KNOCKOUT.

San Francisco, March 1.—Champion Featherweight Young Corbett had no difficulty in retaining his laurels last night, defeating Dave Sullivan of New York in the eleventh round of a scheduled twenty-round contest. Corbett left the ring without a mark, while on the other hand Sullivan received a terrible beating, only the action of Referee Graneey in stopping the contest saving the New Yorker from a knockout. Sullivan put up a game fight and, while outboxed, outfought and outgeneraled, he gave the champion cause for worry in one round. Aside from Sullivan's extraordinary gameness, the contest was never in doubt. Corbett held his man safe during all stages of the contest, and it was but a question of time when Sullivan would have to quit.

The fourth round nearly saw the end of the fight and only by taking the full count at four different times did Sullivan manage to pull through. The main feature of the fight, which was one-sided, was the great amount of infighting. They hung together for a minute at a time, using either hand they could get free. Corbett proved himself superior in that style of fighting and he seemed to punch harder from a short distance.

Jimmy Britt was an interested spectator at the ringside. The general opinion of the sporting element which has seen both men in action is that Corbett will be the favorite in the betting and that Britt, while giving him a good fight, will not be the winner.

JEFFRIES AND MUNRO MATCHED.

Will Fight at San Francisco for Heavyweight Championship.

New York, March 1.—Jim Jeffries and Jack Munro have signed articles to fight for the heavyweight championship of the world at the Yosemite Athletic club, San Francisco, during the last week in May. A purse of \$25,000 is guaranteed.

GUARDED BY STATE TROOPS.

Negro Under Arrest for Murder and Robbery.

Meridian, Miss., March 1.—Three full companies of state troops now surround the county jail here in which is lodged J. P. Paris, a negro, who is charged with the killing of John R. Stockton, a mail clerk, the serious wounding of J. A. Bass, another mail clerk, and the robbery of the mail car on the Alabama Great Southern train which left this city Monday morning for Birmingham.

Paris was captured early Monday, bloodhounds following a bloody trail, strewn with bits of registered letters, to a negro cabin where Paris was found. As soon as the capture of the supposed bandit was noised abroad there were threatening indications that a mob attempt to lynch him. Governor Vardaman wired Major Deane of this city to call out the state militia and to protect the negro prisoner at all hazards.

FOR REPUBLICAN CONVENTION.

National Committee Disposes of Matters of Detail.

Washington, March 1.—Preliminary action toward the preparation of the Coliseum building in Chicago for the meeting of the National Republican convention in June was taken Monday when Acting Chairman Payne, Senator Scott, Secretary Dover and Sergeant-at-Arms Stone of the National Republican committee on arrangements approved the architect's plans for seating the delegates in the vast hall. Various other matters of detail were disposed of. The press arrangements will be in the hands of Harry S. New, who will have the co-operation of Major John M. Carson, the chairman of the standing committee of Washington correspondents, in the work to be done.

LANDSLIDE FOR HULL.

Judge Prouty Defeated in Polk County (Ia.) Primaries.

Des Moines, Ia., March 1.—Returns from fifty-one precincts in Polk county, with twenty precincts to hear from, give Captain J. A. T. Hull, candidate for congress, 145 delegates out of 214. Judge Carr, one of Judge Prouty's managers, concedes the county to Hull by a majority of from 15 to 20. The result of the primaries seems to be a landslide for Captain Hull. The charges made before the primaries that Judge Prouty's organization would be unfair in counting the ballots was not realized.

FOUR SAILORS DROWNED.

Boat Caught Among Ice floes and Crushed.

Norfolk, Va., March 1.—News has been received here of the drowning of four sailors in Chesapeake bay between the month of the Potomac river and Smith's Island. Their rowboat was caught among ice floes and crushed when the men were trying to go ashore for provisions.

Second Joint Scale Conference.

Indianapolis, March 1.—The second session of the joint scale conference between the coal operators and United Mine Workers of the central competitive district opened here during the day. There were present about 800 miners and about the same number of operators as before. The 250 additional miners are here from Michigan, Iowa, Kentucky, West Virginia and the anthracite field.

BARRINGTON ON THE STAND.

Emphatically Denies That He Claimed to Be a Lord.

St. Louis, March 1.—Frederick Seymour Barrington, who is on trial at Clayton on the charge of having murdered James P. McCann, his friend and benefactor, was placed on the stand for a short time before the close of the session. When asked his name he refused to answer, saying he reserved the constitutional right not to incriminate himself. The prisoner emphatically denied representing himself as "Lord Barrington," and said he never claimed his home was at Belmore Castle.

Barrington then described his arrest on the charge of murder and said he was terrified by the conversation of the officers and feared that he was to be lynched without a trial.

Testimony heard from police officers during the day when the jury was withdrawn from the room, was finally ruled admissible by the court. Mrs. McCann is expected to go on the stand today.

Parliamentary Ruling.

"He said he could not help kissing you," whispered the first congressman's daughter. "He said when he sat beside you in the conservatory and looked into your eyes he was moved by an irresistible impulse and simply had to kiss you."

"Did he?" smiled the second congressman's daughter, who was listening with some interest to the apology thus being made for the boldness of the handsome cousin of the other girl.

"Yes, He said it was your eyes that won him. He?"

"Well, he'll have to come around and correct the minutes of that meeting. The eyes won it, but the nose got it."

—Judge.

THE WORD "HUSSAR."

It Is Hungarian and Originally Meant a Freebooter.

Hussar is a Hungarian word meaning originally a freebooter or free lance. These men, strong, active, hardy, accustomed to capture and tame herds of wild horses, were brought into military service by Corvinus, the boy king, in 1442 and became the finest body of light cavalry in the world. The suggested derivation from the Magyar word, twenty, and, ar, pay (one horseman raised by twenty families)—is only a fanciful one. The name spread into all armies, and hussars of all nations are distinguished by uniforms of brilliant colors and elaborate ornament. Two characteristics are the dolman and the busby, with its scarlet cloth attachment, a survival of the narrow Magyar bag, which fell over the left shoulder as a protection against sword cuts.

The word dragon was first used of a regiment of mounted infantry, so called from the dragons or short muskets with which they were armed. The head of a dragon, wrought on the muzzle of the muskets, seemed to spit fire and at one time was depicted on their standard.

The easiest way to get along with some people is to let them think they are right.—Aitchison Globe.

ESCHOL SELLERS.

The Original of the Hero of Mark Twain's "Gilded Age."

The real name of the hero of "The Gilded Age" was Eschol Sellers, and he was an inventor and an active promoter very well known in the early days of the new west. His father was one of the first locomotive builders in the United States, with works at Philadelphia. Eschol Sellers and Charles Dudley Warner occupied adjoining houses some years before "The Gilded Age" was written. Sellers at that time was developing a coal field near Shawneetown, Ill., at what was then and is still known as Sellers' Landing. He was also inventing a process after the manner of Indian weed pulp. He was also experimenting with the camel back engine. Notwithstanding the fact that Sellers' enterprises were destined all to be successful, Charles Dudley Warner conceived the idea that he was a typical visionary dreamer. He therefore suggested the name of Eschol Sellers for the hero of "The Gilded Age," and Mark Twain used the name, believing it to be fictitious. One of the first copies of the book happened to be seen by Eschol Sellers, who went at once to Hartford and enjoined the publication. A compromise was effected by which the publishers paid Sellers \$5,000 for damages and cut all of the plates, removing the name Eschol and substituting that of Mulberry. Eschol Sellers died at a very advanced age at his pleasant home on Missionary ridge, near Chattanooga.—Washington Star.

DOING ONE'S BEST.

It Is a Good Character Forming Habit to Cultivate.

This habit of always doing one's best enters into the very marrow of one's heart and character. It affects one's bearing, one's self possession. The man who does everything to a finish has a feeling of serenity. He is not easily thrown off his balance. He has nothing to fear, and he can look the world in the face because he feels conscious that he has not put shoddy into anything, that he has had nothing to do with shams and that he has always done his level best. The sense of efficiency, of being master of one's craft, of being equal to any emergency, the consciousness of possessing the ability to do with superiority whatever one undertakes, will give soul satisfaction which a half hearted, slipshod worker never knows.

When a man feels throbbing within him the power to do what he undertakes as well as it can possibly be done, and all his faculties say "Amen" to what he is doing and give their unqualified approval to his efforts—this is happiness, this is success. This buoyant sense of power spurs the faculties to their fullest development. It unfolds the mental, the moral and the physical forces, and this very growth, the consciousness of an expanding mentality and of a broadening horizon, gives an added satisfaction beyond the power of words to describe. It is a realization of nobility, the divinity of the mind.—Success.

A Crooked Spire.

The most curious spire in England is at Chesterfield, the leaning tower of Pisa not being more interesting to sightseers than the queer kink in a respectable church, which tradition says was caused by the devil kicking out as he passed the spire. The devil had just had his hoofs shod by a local blacksmith, and his pain was so intense the edifice was shaken out of shape. Another and wittier legend says the spire was bowing to a lovely and virtuous bride. Many noted persons have in years gone visited Rowsley and quaint Peacock Inn and thence traveled to Chesterfield to gaze on this freak of nature, for natural causes are supposed to have bent the spire rather than an irritable devil whose hoofs were not shod to please him.

Imitating Color Blindness.

One can sometimes imitate the effects of color blindness through over-fatigue of the eye. Thus Mr. Brett, the English painter, told the members of the Royal Astronomical society that in painting a scarlet geranium, after working at it for a quarter of an hour the artist will not know that it is scarlet at all, but will go on painting it as if it were black or colorless. "Red," he explained, "is a very irritant color to the retina," and he added that "you can look at green until all is blue."

Poker Was Once "Scharwenzel."

Germans claim that poker is an old German game, which for more than 100 years has been played and is still being played in some districts of Westphalia. Emigrants took it to the United States, and there its name of "scharwenzel" was changed into "poker."—London Express.

Another Interpretation.

Miss Budd—Didn't I overhear Mr. Phalter remark to you that I was "a pretty young lady?" Miss Chellus—Yes, and you really are pretty young, you know, but you'll outgrow that, of course.—Philadelphia Press.

The Patient's Excuse.

Physician—I told you to come three times a week. Why haven't you been here for five days? Patient—Because I haven't been feeling well enough.—Cincinnati Commercial Tribune.
